

## SKYLINE® UNIQUE WAVY CURTAIN SYSTEMS

ICONIC BUILDINGS CREATE THE SKYLIES OF THE WORLD'S MOST FAMOUS CITIES. ARCHITECTURAL MASTERPIECES THAT APPEAL TO OUR IMAGINATION AND ARE ETCHED IN THE HISTORY BOOKS. THESE FAMOUS BUILDINGS SERVE AS TESTIMONIES OF HUMAN CREATIVITY, RESILIENCE AND CULTURAL HERITAGE.

Think Paris, think New York, think Tokyo or think Rotterdam. The world as a source of inspiration, the Skyline as a canvas, the building as a functional object for breathtaking design. With our 'Skyline' curtain solution you make an architectural difference to influence the city silhouette! Transcend uniformity with absolute design freedom, for a facade that is completely unique.

The 'Skyline' collection consists of various curtains made of metal mesh or PVC for in- and outdoor. Tested for wind load, sun protection value and a pleasant indoor climate. Any colour print or pattern is possible. Undulating facades transcend mere construction, embody the spirit of our time and fascinate with their beauty and grandeur.
