SLIDING AND FOLDING SYSTEMS

TRANSIT® SLIDING AND FOLDING SYSTEMS

TRANSIT STANDS FOR "TRANSFORMATION". AFTER ALL, OUR TRANSIT COLLECTION TRANSFORMS A FACADE. THE TRANSIT COLLECTION IS INDISPENSABLE IN CONTROLLING AN INDOOR CLIMATE.

The world as inspiration, the city as canvas, the building as the object of practical implementation. Transit is a unique and luxurious form of shading, aesthetically maintaining even the accessibility of the glass areas for washing. The sliding and folding systems from the Transit collection are available in manual or electrically operated versions. The slats within the frame are available in wood and aluminium.

TRANSIT®

SLIDING AND FOLDING SYSTEMS

A FITTING INTERPLAY OF LINES WITHIN AN OFTEN SLEEK DESIGN.
THE VIBRANT VIBE OF A MODERN METROPOLIS. THAT IS WHAT THE
SLIDING AND FOLDING SYSTEMS FROM TRANSIT.

Sliding and folding systems are dynamic and multifunctional. They provide shading, light control, draught control and privacy. Various types of products from the Transit collection of mesh curtains fall within this type of sun protection. These inspiring systems 'transform' a facade into a contemporary whole.

The sliding and folding systems from the Transit collection are available in manual or electric operation. The frame of a sliding and folding system is made of steel, aluminium or wood. The slats within the frame are available in wood or aluminium. So there therefore always a suitable sliding and folding system available, both for a specific design and a personal solution.
