LOOKBOOK 2024

EN

NEXT LEVEL PERFORMANCE

OUR VISION IN EXECUTION

WHETHER YOU ARE AN ARCHITECT, CONTRACTOR OR MECHANIC: EVERYONE WANTS TO GO TO THE NEXT LEVEL. THE LEVEL THAT LIES SOME DISTANCE AWAY BECKONS, AND IS NOT EVEN UNATTAINABLE. ONLY: YOU DON'T JUST GET THERE. IT TAKES MORE THAN THAT.

With the right, stylish applications in functional blinds, Lenco takes climate control for objects to next level. We do this with durable slats, awnings, sliding frames and zipper screens of the highest quality. Functional and aesthetic applications that give every project that extra push to the next level.

NL

NEXT LEVEL PERFORMANCE

ONZE VISIE IN UITVOERING

OF U NU ARCHITECT, AANNEMER OF VASTGOED-BEHEERDER BENT: IEDEREEN WIL NAAR EEN NEXT LEVEL. HET NIVEAU DAT EEN EINDJE VERDEROP LIGT LONKT, EN IS NIET EENS ONBEREIKBAAR. ALLEEN: JE KOMT ER NIET ZOMAAR. DAAR IS MÉÉR VOOR NODIG.

Met de juiste, stijlvolle toepassingen en service in functionele zonwering brengt Lenco klimaatbeheersing voor objecten naar next level. Dat doen we met duurzame lamellen, luifels, schuifframes en ritsscreens en bijhorende besturing van de hoogste kwaliteit. Functionele en esthetische toepassingen die ieder project nét dat ene duwtje naar een hoger niveau geven.
